

# MIDAS

**Kalliatakis G., Varchalamas P., Vlasopoulos A., Syntychakis E.**

**Software Engineering - Winter Semester 2013-14  
M.Sc. in Informatics & Multimedia  
February 2014**

# What is MIDAS?

**It's about a software system that can offer:**

**Multimodal** → Enables different modalities (gestures, voice, facial expression)

**Interaction** → User communication between systems (PC, network devices, etc.)

**Directed by**

**Action** → Executable Commands for applications

**Sentences** → Synthesization of sentences based on gestures, voice, etc.

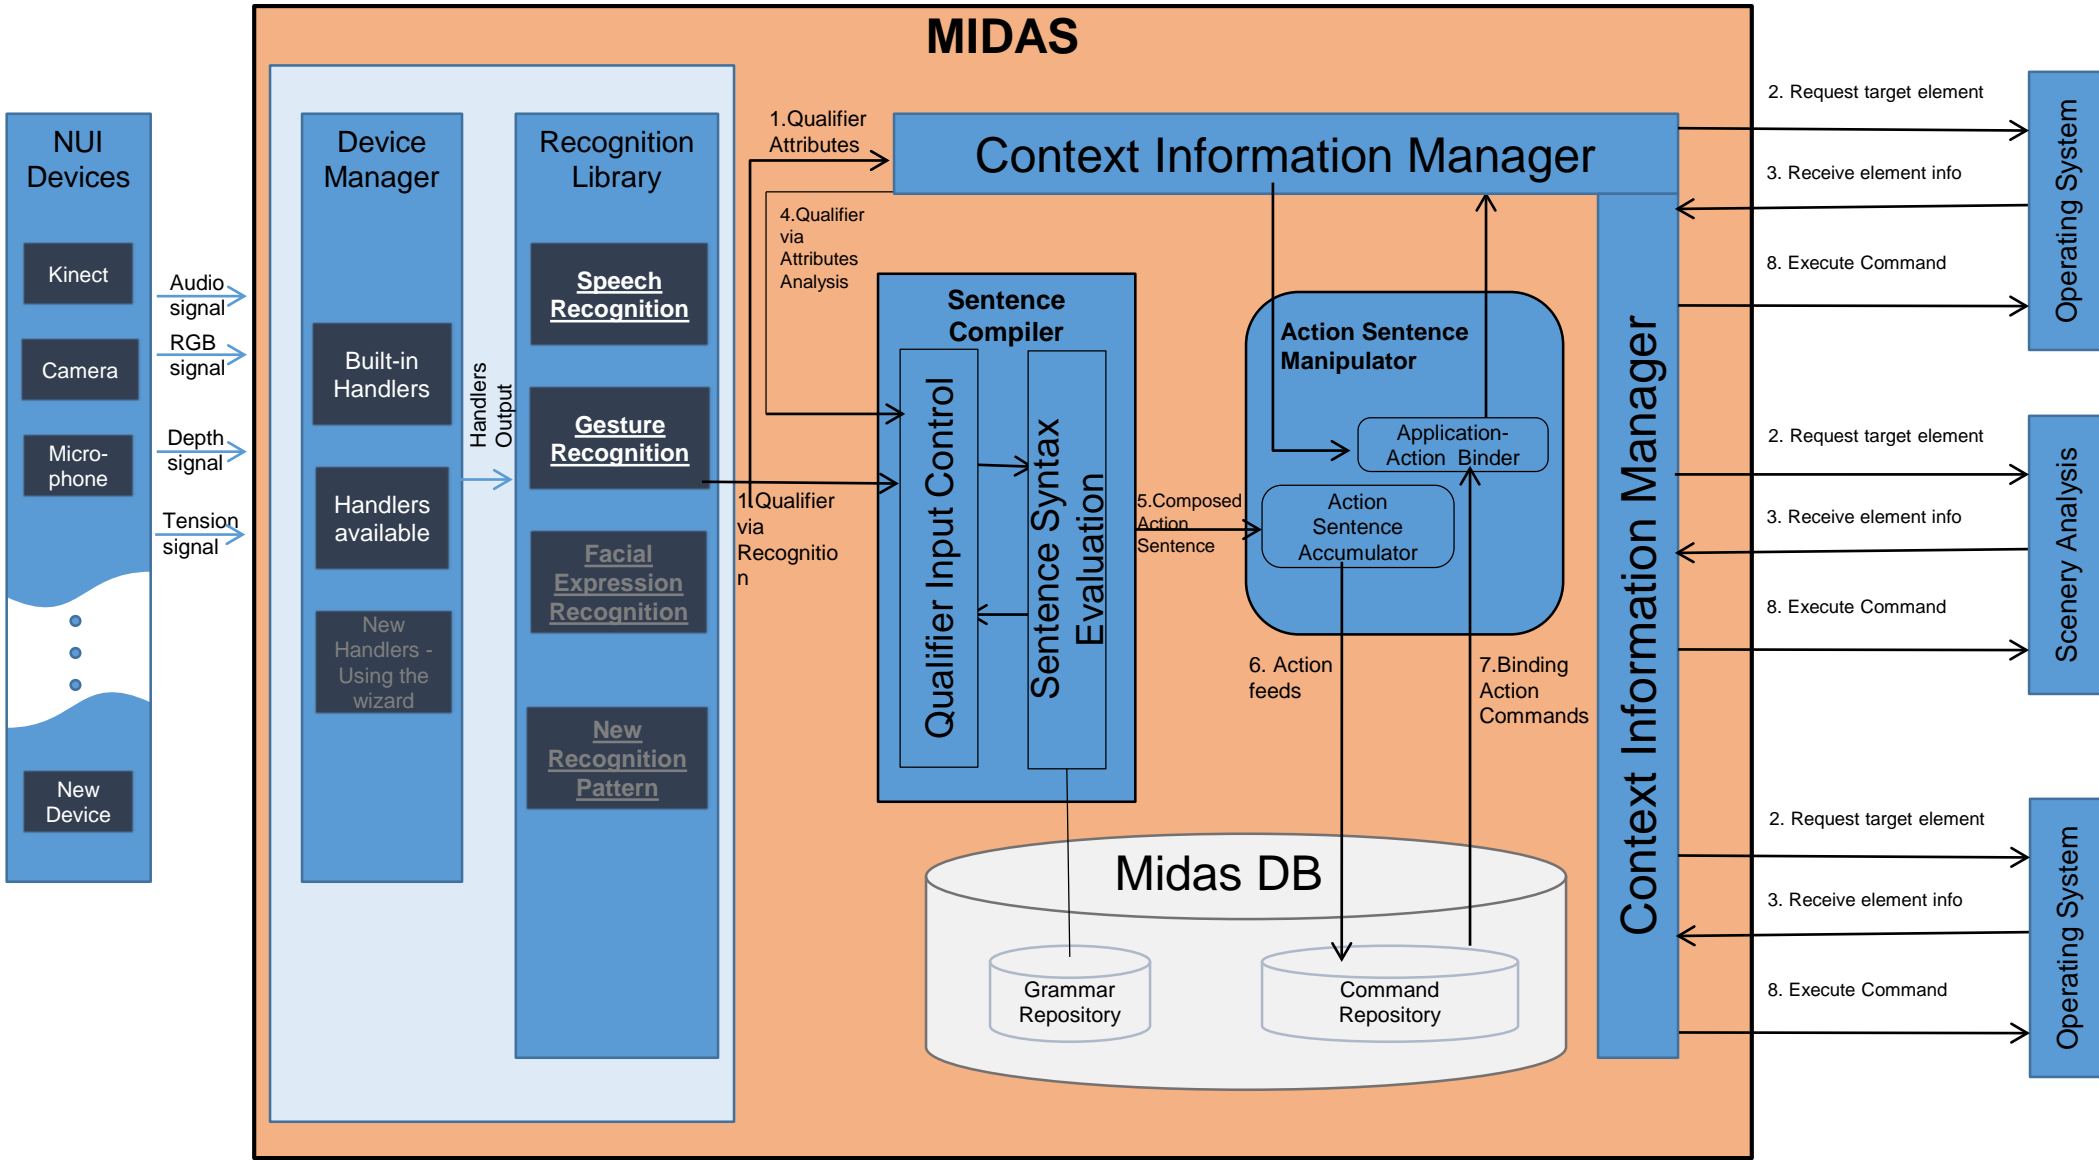

# Technologies used in Development

- **C# Language**
- **WPF – Windows Presentation Foundation in Visual Studio 2012**
- **Data Entity Model ORM Framework**
- **Microsoft Kinect SDK 1.8**
